'CENTRE OF EXCELLENCE'
MEMORANDUM OF UNDERSTANDING

A) PURPOSE

Today Computer Aided Design (CAD) is no more an option but a necessity for almost all types of engineering industries. Also there is a significant shift in the Indian engineering industry towards 3D-CAD.

Increasingly the universities and institutes are making a shift from 'CAD only' approach to 'Product Design, Product Synthesis & Product Engineering' approach. This is because the complexity of products is increasing and CAD-only approach is failing to address the multitude of aspects a product engineer needs to address. Today's product engineers want to achieve superior product quality, reduce time to manufacture the products and reduce the costs of designing and production to as low as possible. With the growing engineering and services industries in India, it is easy to imagine that the trained human resources are required in product engineering companies.

BNCOE, Pusad is one of the most respected colleges under Amravati University which can demonstrate capabilities of providing trained Technical Human Resources in the area of CAD-CAM-CAE to various domestic and international corporate houses and also provide engineering solutions to various manufacturing industries. 'Centre of Excellence' would be the first step in

हस्त MEMORANDUM OF UNDERSTANDING

A) PURPOSE

In recent years, the rapid -advanced computers and electronics have made an unprecedented growth in term of technological improvements in major areas of Mechanical Engineering Design and Drafting practices. Conventional Design and Drafting practices are replaced by Computer aided Design (CAD).

In order to fulfill the requirements of the Industries and practical fields, it is needed to develop the Engineers with sound Knowledge and competencies in CAD.

Keeping this important view in mind, Babasaheb Naik College of Engineering, Pusad intends to give exposure to its students in the field of CAD courses in association with Ms. Excelize Architectural Services Pvt Ltd, Aurangabad. This will open new avenue at reasonable cost.

With this objective, the MOU has been signed so that advance courses will be conducted in association with Ms. Excelize, Aurangabad and Babasaheb Naik College of Engineering, Pusad.

B) INVOLVED PARTIES

The agreement made at Aurangabad on 27th Day of June 2013 between Ms Excelize Architectural Services Pvt Ltd having its office at Block # 12, Electronic Sadan, Software Technology Park, MIDC Chikalthana, Aurangabad hereinafter referred as Excelize which expression shall mean and includes their successor's trustees etc. through its Director Mr Pratap Dhopte, R/o Aurangabad. Hereinafter called PARTY OF FIRST PART.

AND

Babasaheb Naik College of Engineering, Pusad hereinafter referred as BNCOE through its Principal Dr. RAVI and will be called as PARTY OF SECOND PART.

Both the parties have mutually decided to implement the joint association for giving the exposure and training to students of Babasaheb Naik College of Engineering, Pusad.
